Instructor: Matthew Duez

Email: m.duez@wsu.edu (<mailto:m.duez@wsu.edu>)

Office: Webster 947E

Office Hours: Monday, Thursday 1-2pm

Course Description: Calculus-based physics, topics in electricity, magnetism, electromagnetics, DC and AC circuits, optics, reflection, refraction, interference, diffraction, polarization.

Credit hours: 3

Prerequisites: PHYSICS 201 with a C or better or PHYSICS 205 with a C or better; MATH 172 with a C or better or MATH 182 with a C or better.

Other requirements:

- Pearson Mastering Physics Student Access Kit. To register, click "Access Pearson" on the left bar. All homework will be on Pearson Mastering Physics. After registering, you can access homeworks either by logging into your Pearson account or by following the Canvas links for individual homework in "Assignments".
- Registering with Pearson also gets you eText access to the course textbook, *Physics for Scientists and Engineers: A Strategic Approach with Modern Physics, 5th edition*, by Randall D. Knight. Textbook readings will be an important part of class. You may access the book either by logging into your Pearson account or by following the "Textbook" links for individual chapter sections in "Modules".

- You require an account on iClicker cloud and membership in the course "PHYSICS 202 SECT 01 FALL 2025". You will access the course and answer questions using either the free student iClicker app on you phone or via a web browser on your computer at <https://www.iclicker.com/> (<https://www.iclicker.com/>). For instructions, see the [iClicker Student Guide](https://sites.google.com/macmillan.com/iclicker-student-support-osu/student-guide). Grading Policies

1. Percentage weighting:

- 30% Hourly Exams
- 30% Lecture Tutorials
- 20% Homework
- 10% iClicker questions
- 10% Reading Assignments

2. Scale:

A: 90% - 100%	A-: 85% - 90%	
B+: 80% - 85%	B: 75% - 80%	B-: 70% - 75%
C+: 65% - 70%	C: 60% - 65%	C-: 55% - 60%
D+: 50% - 55%	D: 45% - 50%	

3. **Homework:** Nearly every class period homework will be assigned through MasteringPhysics, an on-line homework service for this textbook. Homework is due at midnight two days later.

4. **Reading Assignments:** There will be regular reading assignments from the textbook and comprehension quizzes on Canvas. Quizzes are due at the beginning of class time. Completing the reading assignments will prepare you to have productive discussions with your peers, facilitators, and instructor during class activities.

5. **IClicker:** Multiple choice questions emphasizing key physics concepts that will be answered using iClicker. Credit for each question will be 1 point for submitting an answer and 0.5 point for correct answer. These questions are used to prompt a discussion with a peer student. There will be no makeup opportunities for points from missed lectures, but the lowest three scores will be dropped at the end of the semester.

6. **Lecture Tutorials:** The lecture tutorials are designed to be an exploration of the some of the mathematics involved in solving various problems in electromagnetism and optics. Five tutorials will be collected during class time. Since these are in-class projects, there are NO make-ups. However, the lowest score will be dropped.

7. **Hourly Exams:** There are 3 hourly exams scheduled. The final hourly exam will be during finals week at the time reserved for the final exam. (There is no final exam in this class.) There will be NO make-up exams given. A missed exam is counted as a 0. However, your lowest hourly exam grade may be replaced by your homework score.
